

Panda Antivirus

2008

Install it and forget about viruses and spyware

Here is the easiest-to-use protection for your computer. The new **Panda Antivirus 2008**. Just install it and forget about all viruses, spyware and online fraud. And you hardly have to lift a finger, so you can chat, share photos and videos with friends, read your favorite blogs or simply surf the Web, with complete peace of mind. And it's so light, you won't even notice it.

INCLUDES:

- Panda Antivirus**
- Panda AntiSpyware**
- Panda AntiPhishing**
- Panda AntiRootkit**
- ☑ Panda TotalScan Pro**

MEGADETECTION: PANDA'S SECURITY MODEL

The security model offered by Panda Security is based on four pillars that guarantee detection of more than a million viruses and other threats, offering levels of protection far higher than other security solutions.

1+2+3+4 PERMANENT PROTECTION

Daily automatic updates and continuous product upgrades provide permanent security against Internet threats.

1+2+3+4 PROACTIVE PROTECTION

TruPrevent Technologies detect and block unknown threats, intelligently scanning potentially dangerous program behavior.*

1+2+3+4 IN-DEPTH ONLINE SCANNING

The exclusive technologies of Panda TotalScan Pro allow periodic in-depth online scanning, to detect and delete the most sophisticated threats that can slip past traditional protection.

1+2+3+4 24h - 365d TECHNICAL SERVICES

Specialized 24h-365d technical services, via email or at www.pandasecurity.com

*Technologies included in Antivirus + Firewall and Internet Security 2008.

☑ Antivirus

Detects and eliminates all types of viruses, worms and Trojans

You can use the Internet and download or share files in the knowledge that you are fully protected against all types of viruses, worms, and Trojans.

☑ Antispyware / Antimalware

Stops anyone spying on you on the Internet

Detects and eliminates spyware and other programs that install themselves on your computer without your permission.

☑ Antiphishing

Lets you bank or shop online securely

It can identify fraudulent emails, preventing you from giving away your passwords, account numbers, or confidential data, so you will be safe from these dangerous scams.

☑ Antirootkit

Detects and eliminates hidden threats

Its reinforced protection detects threats that try to hide on your PC.

☑ In-depth online scanning

Deep scanning of your PC with TotalScan Pro

You can scan your PC in-depth whenever you want and remove all threats that might have slipped past traditional protection.

Exclusive services

Automatic daily updates

Updated automatically at least once a day. This means you will always be protected against viruses, spyware and other threats.

Tech Support 24 h - 365 days

Whenever you need us, PandaLabs and our tech support experts will provide a rapid response by email or the Internet. Also includes 24h-SOS service to combat new viruses.

PANDA
SECURITY

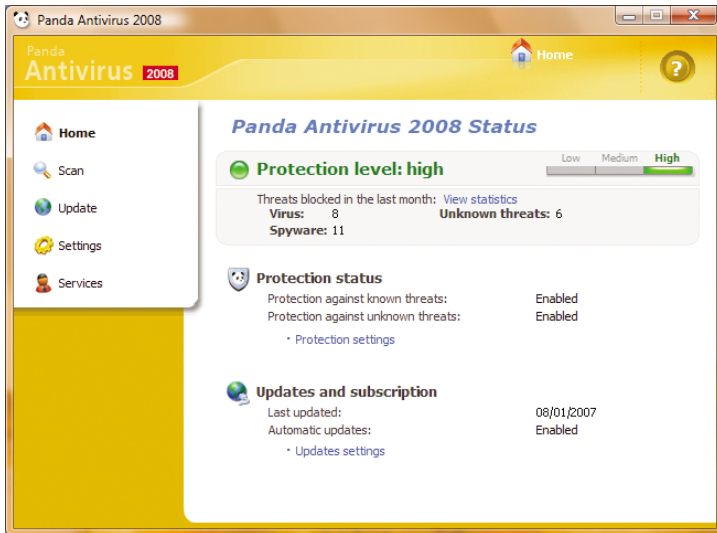

One step ahead.

Panda Antivirus

2008

Install it and forget about viruses and spyware

EXPERTS' OPINION:

LIGHT AND FAST PROTECTION

"Certainly the Ultrafast engine lives up to its name. Compared to packages such as McAfee and Norton, Panda consumes far fewer resources".

PC ADVISOR - January 2007

EASE OF USE

"The panda engineers have done a great job in process automation and ease of use".

DEALER WORLD - December 2006
